About InnerSpace

InnerSpace specializes in solutions for all areas and departments within a healthcare facility. We offer carts, cabinets, open storage, and accessories for supply storage, products with embedded technology for improved efficiency and security, and the Ventaire™ Endoscopy System for the storage, drying, and transport of endoscopes.

What we offer

Breadth of application

Our broad offering of mobile and stationary medical storage products addresses department-specific equipment and supplies as well as general supply management. The Ventaire Endoscopy System focuses on the endoscopy department and endoscope reprocessing and storage, and products with embedded technology and connection to the InnerSpace Cloud platform streamline their operation and management. If your needs can't be met through our standard offering, we can design and build just what you need. Our agility ensures you'll have a custom solution without long lead times or high costs.

Planning expertise and service

Our sales team and customer service representatives help you plan, select, and specify your products, including on-site consultation of your storage spaces and work flow processes to help you plan the best approach to the storage, transport, and security of supplies and equipment. On-site and on-demand training is available to customers who purchase products with embedded technology and InnerSpace Cloud services.

Innovative solutions

InnerSpace has its roots in storage products, but we continue to grow and meet the needs and demands of the medical community. The Ventaire Endoscopy System offers a range of products that dry, reprocess, store, and transport endoscopes. Integrated technology and automation features aid staff in the safe drying and handling of endoscopes. And the InterConnect lock system includes features to control access levels and security. When connected to the InnerSpace Cloud platform, the management of Ventaire and InterConnect products can be done from anywhere, streamlining the work of administrators. Communication offered through the cloud platform provides administrators with real-time alerts and reporting features, information that is especially important in meeting compliance standards.

Flexible, functional, modular storage system.

Evolve cabinets make the work of storing and accessing supplies efficient and organized, and they do so with a clean design that offers enhanced aesthetics and construction details that support infection prevention measures.

The Evolve line includes the Architectural Series of cabinets with adjustable shelves; the FlexCell Series of cabinets with FlexCell interiors and a choice of components; tall, upper, and lower cabinets; and specialty cabinets, including catheter cabinets and scope cabinets all offered in a range of sizes and material and finish options. Architectural Series cabinets are 18" deep and 24" deep; FlexCell Series cabinets are 19.25" deep and 27.25" deep.

The Architectural Series base, upper, and tall cabinets with adjustable shelves are available in stainless steel, AireCore, and compression board with melamine surface. Recessed cabinets, 48-inch-wide cabinets, and 42-inch-wide tall cabinets are only available in stainless steel. AireCore cabinets can be finished in Glacier White or Brushed Aluminum melamine or laminate and have Glacier White interiors and shelves. Stainless steel cabinets are constructed of 18-gauge

304 stainless steel and have stainless steel shelves.

Options include self-closing glass doors and solid-front hinged doors on all cabinets as well as no doors on upper and base cabinets; keyed locks or InterConnect locks (with or without InnerSpace Cloud service); peg board interiors on recessed cabinets; and sloped tops on upper and tall cabinets. A 4"-high toe kick is standard, but a 6"-high toe kick or no kick is an option.

The InterConnect lock option has an OLED screen that can be read clearly at wider viewing angles. The keypad is designed for easy input, even when users are gloved. Link InterConnect with the InnerSpace Cloud platform, and the lock becomes a WiFi-enabled lock system that lets an administrator manage the security of an entire cabinet fleet from a single computer. Evolve cabinets are warranted for five years. Electrical components are warranted for one year, and InterConnect locks are warranted for 1 year.

See Optional Products section for a complete list of cabinet add-ons.

Material choices include compression board with laminate surface, stainless steel, and AireCore with Glacier White or Brushed Aluminum finish

Aluminum channel on glass door

Aluminum tracks on cabinet interior accept LED lights

Glass and solid-front hinged doors or no doors on upper and base cabinets

Shelves adjust in 1/4" increments

Keyed and InterConnect locks

Separate toe kick simplifies installation; installer can level base piece and then fit cabinet over it

4" h standard toe kick, 6" h toe kicks or no toe kick options

Material for high risk environments

Architectural Series cabinets are available in stainless steel, AireCore, and compression board with melamine surface. In environments such as operating rooms and other high-risk areas that demand strict infection controls, the choice of cabinet material plays an important role. The International Health Facility (iHFG) recommends that facilities should select materials and surfaces that are not prone to collecting dust or moisture, are sealed, impermeable, easy to clean, and have a smooth surface.

Our stainless steel and AireCore cabinets meet the iHFG guidelines, making them an excellent choice for high-risk environments. And our proprietary AireCore cabinets offer a great alternative to stainless steel by providing a cost-effective option without compromising quality. AireCore is durable, lightweight, and resistant to water, chemicals, corrosion, and bacterial growth.

Stainless Steel Cabinet

- Cabinet shell: 18-gauge 304 stainless steel with 18% chrome and 8% nickel analysis; exposed surfaces furnished with #4 mill finish
- Door: 0.125" poly-sealed tempered glass or solid hinged doors with 18-gauge 304 stainless steel construction
- Hinges: Stainless steel
- Door Pulls: 5" stainless steel bow pull

AireCore Cabinet

- Cabinet shell: Aluminum composite with Glacier White finish
- Glass doors: Clear anodized aluminum and tempered glass
- Glass trim: Clear anodized aluminum
- Solid-front doors: Aluminum composite with Glacier White finish
- Hinges: Metal, concealed European-style
- Edge banding: White ABS
- Door pulls: Dull chrome-plated steel

AireCore and Brushed Aluminum Cabinet

- Cabinet shell: Aluminum composite with Brushed Aluminum
- Glass doors: Clear anodized aluminum and tempered glass
- Glass trim: Clear anodized aluminum
- Solid-front doors: Aluminum composite with Brushed Aluminum
- Hinges: Metal, concealed European-style
- Edge banding: Brushed Aluminum Acrylic
- Door pulls: Dull chrome-plated steel

Compression Board Cabinet

- Cabinet shell: Thermally fused melamine over 0.75"-thick compression board
- Glass doors: Clear anodized aluminum and tempered glass
- Glass trim: Clear anodized aluminum
- Solid-front doors: Thermally fused melamine over 0.75"-thick compression board
- Hinges: Metal, concealed European-style
- Edge banding: White ABS
- Door pulls: Dull chrome-plated steel

Upper Cabinets with Single Door

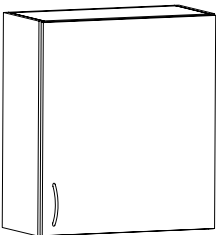

Specify cabinet material

- SEA** for Glacier White AireCore
- SEB** for Brushed Aluminum AireCore
- SEC** for compression board
- SES** for stainless steel

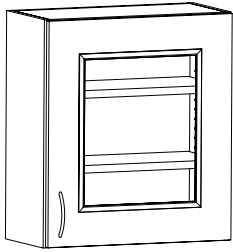

- Solid, glass, and no door options
- Order optional sloped tops, additional shelves, and keyed or InterConnect locks separately (See Optional Products)

Infill Panels

Infill Panels

Specify material

- SEA** for Glacier White AireCore
- SEB** for Brushed Aluminum AireCore
- SEC** for compression board
- SES** for stainless steel

- Infill panels fill the gaps between adjacent Evolve cabinets in a run. Panel height matches the height of the adjacent cabinet, and panel finish matches the cabinets' surface material and finish. Maximum length is 96"
- Infill panels are also available for cabinets with sloped tops
- Compression board and AireCore infill panels can also be specified to match cabinet finish material

AireCore/ Compression Board

AireCore/Compression Board	Cabinet Type
SE_TUIFST	For tall and upper cabinet slope tops
SE_BIF	For base cabinets
SE_TIF	For tall cabinets
SE_UIF	For upper cabinets

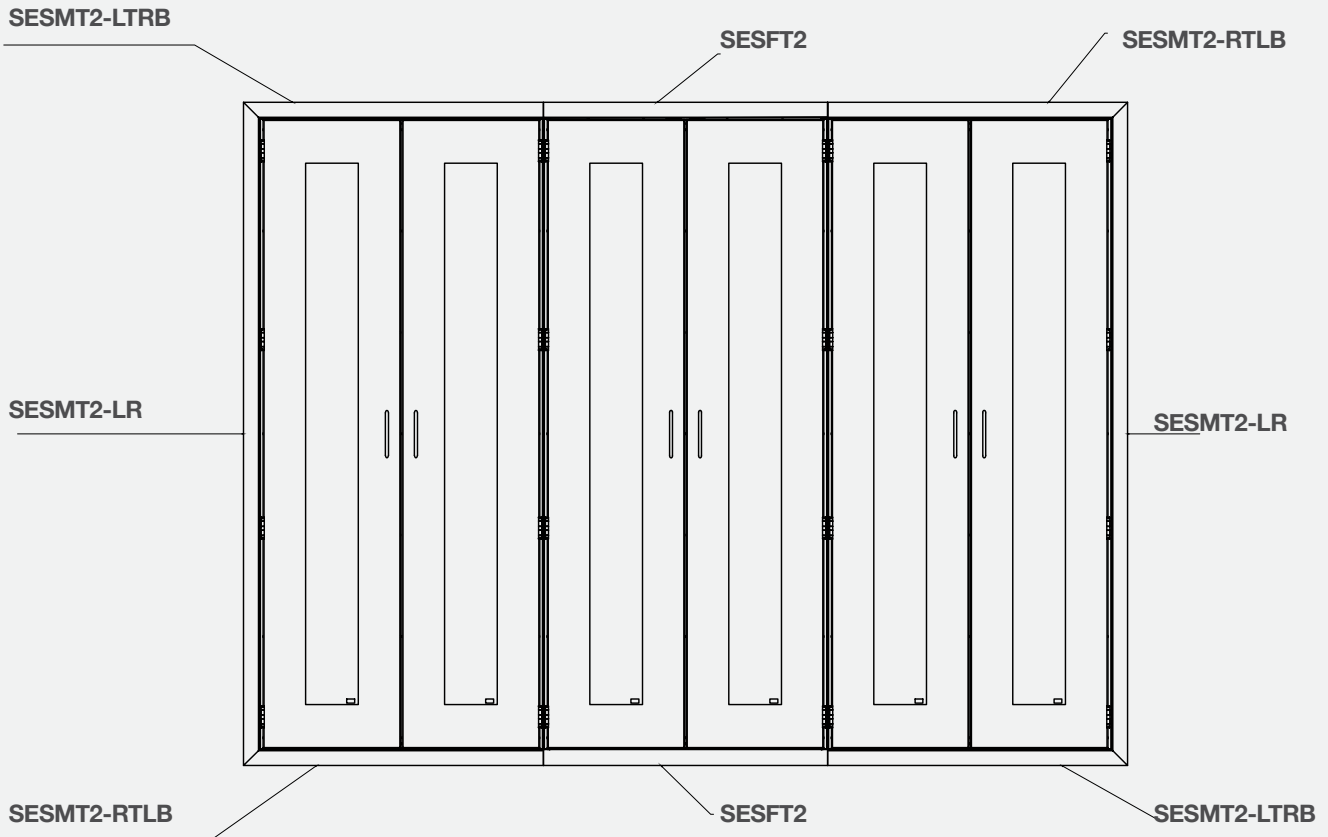

Stainless Steel

Stainless Steel	Cabinet Type
SESUIFST13	For upper cabinet slope tops
SESTIFST24	For tall cabinet slope tops
SESTIF80	For 80" tall cabinet
SESTIF84	For 84" tall cabinet
SESTIF86	For 86" tall cabinet

SEAUFE	For right side of upper cabinet	Airecore
SEAUFE	For left side of upper cabinet	Airecore
SEABRFE	For right side of base cabinet	Airecore
SEABLEFE	For left side of base cabinet	Airecore

Countertops

Countertops

- Laminated 1.25"-thick countertop fits on an Evolve base cabinet. It has a 4"-high backsplash, finished ends, and Wilsonart Frosty White (1573) surface. Contact InnerSpace Customer Service to specify alternative laminate (888-435-2256)
- Countertop can be specified to any length up to 96". Priced per inch. Optional 1.5"-thick countertop is available in stainless steel and can be specified in any length up to 138" (11.5'). Contact InnerSpace Customer Service to order a stainless steel countertop or a countertop for sink cabinets
- Bracket provides additional support for an Evolve countertop that extends beyond the base cabinet

Countertops

Laminate Countertop	Cabinet Size	Counter Depth
SEC24CT	For 24"d cabinet	24.5"d
SEC24WSB	Metal work surface support bracket	For 24"d countertop
SES24WSB	Stainless steel work surface support bracket	For 24"d stainless steel countertop

LED Lights

LED Lights

- Lights attach to the interior channels on the front of an Evolve cabinet to provide interior lighting. Lights are cool white (6000K) and have an average life of 50,000 hours. Not available on Evolve upper cabinets with sloped tops

InnerSpace specializes in solutions for all areas and departments within a healthcare facility.

We offer carts, cabinets, open storage, and accessories for supply storage, products with embedded technology for improved efficiency and security, and the Ventaire™ Endoscopy System for the storage, drying, transport, and reprocessing of endoscopes.

InnerSpace is here to help you specify the best products for your needs, whether a standard option or customized solution. We offer complimentary storage analysis and design services. Contact our Customer Service team with your requests or to connect with a sales representative, and find InnerSpace products on GSA Advantage, Premier, and Vizient contracts.
