

## Basix<sup>®</sup> Compact

### Efficient storage space for a confined work place.

Basix<sup>™</sup> Compact is constructed from a strong steel alloy to endure the rigors of a daily routine while providing a safe, ergonomic and flexible work area for the user. The Basix line of carts is available in four styles: Basix, Basix Compact, Basix Plus and Basix Plus Compact.

**Compact:** This cart is ideal for close quarters. The cabinet provides a compact footprint of 18.5" x 19.25" (470mm x 489mm).

**Moveable:** This cabinet comes with 3" (76mm) diameter casters (two with brakes), allowing it to be relocated, or moved when cleaning.

**Flexible:** User defined configurations can be accommodated by filling an empty cart shell with desired 3", 6" and 9" (76, 152, 229mm) drawer heights.

**Accessible:** Full-extension drawers with soft close slides provide complete access to supplies. Optional drawer dividers keep supplies neat and organized.

**Ergonomic:** Polymer top provides a user-friendly work surface. Accessory push handles can be mounted in an ergonomic fashion to allow for easy pushing or pulling of the cart.

**Accessories:** An array of task support accessories are available for above the work surface or the side of the cart.
