

PREMIUM GLOVE BOX DISPENSERS

For a durable glove-dispensing solution that doesn't cost a fortune, look no further than the CME Premium Glove Box Dispensers. Copolyester (PETG) and Polycarbonate options are tougher than general purpose acrylic. We offer several choices to make sure you can find the right fit for your unique space. Perfect for high traffic departments like urgent care clinics and emergency rooms. These glove box holders are a great option for stocking a variety of glove sizes or the maximum amount of one size of gloves. Divided options offer independent compartments for easy box exchanges. Now when a middle or bottom box is empty, that's the only one you have to remove!

Features

- Choose Capacity: Single, Double, Triple or Quadruple
- Choose: Divided or Non-Divided
- Constructed of heavy duty, polycarbonate or copolyester (PETG) plastic
- Divided option offers compartments for each box
- Pre-drilled and easy to mount vertically or horizontally
