

STANDARD GLOVE BOX DISPENSERS

For a durable glove-dispensing solution that doesn't cost a fortune, look no further than the CME Glove Box Dispensers. We offer several choices to make sure you can find the right fit for your unique space. Perfect for high traffic departments like urgent care clinics and emergency rooms. These glove box holders are a great option for stocking a variety of glove sizes or the maximum amount of one size of gloves. With independent compartments for each box, easy box exchanges are performed from the side of the unit's separate compartments. Now when a middle or bottom box is empty, that's the only one you have to remove.

Features

- Choose Capacity: Single, Double, Triple or Quadruple
- Constructed of clear, heavy duty acrylic
- Independent compartments for each box
- Pre-drilled and easy to mount vertically or horizontally

horizontal mounting

CMEB-GBD1-A

CMEB-GBD2-A-DIV

CMEB-GBD3-A-DIV

CMEB-GBD4-A-DIV
