# mayacart

---

Created with painstaking attention to detail, the entire MayaCart line was designed with sleek lines and a sheer simplicity. Made in the USA, and created with heavy gauge steel, they're designed to withstand the most demanding clinical environments. With our commitment to helping create and maintain a clean and safe environment for patients and staff, every MayaCart drawer handle is embedded with silver ion antimicrobial additives that can help minimize healthcare associated infections (HAIs) and help keep surfaces cleaner between sanitizations. Whatever your facility's needs, we can help you choose the ideal MayaCart, MayaMini, MayaCode, or Mayaiso along with the accessories that best suit you.

mayacart | mayamini | mayaiso | maya**code**

**Made in the USA, the MayaCart is engineered to withstand everyday wear and tear in any healthcare setting.** Available in four sizes, the MayaCart comes with either preconfigured drawers or as a shell with a customizable drawer configuration to meet the needs of any facility. MayaCart comes standard in Sky White and is also available in yellow as often seen in isolation carts, blue which commonly identifies anesthesia carts, red as seen in crash carts, along with dark blue and green.

## STANDARD FEATURES

- Easy-clean drawer handles with a silver ion antimicrobial additive embedded – can help to minimize healthcare associated infections (HAIs)
- Quiet-close drawer glides – can help improve patient satisfaction scores
- Pass-through pull-out work surface – provides additional work space
- 3 locking casters and 1 tracking caster easily lock and unlock via the push down brake mechanism
- Standard key lock

## OPTIONAL ACCESSORIES

- Seamless drawer trays – can help to minimize healthcare associated infections (HAIs)
- Available push button electronic lock with Microban® antibacterial surface coating
- Some optional accessories include:
  - Chart Holder
  - Side Storage Bin
  - IV Pole
  - Sharps Container
- For a full range of accessories see **Pages 9-10**

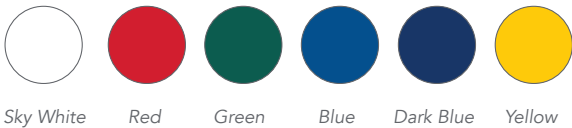

## ANTIMICROBIAL ENHANCEMENTS

We are committed to helping our customers maintain a clean and safe environment for their patients and staff. The drawer handles on all MayaCarts have a silver ion antimicrobial additive embedded in them. The keypad, included with MayaCarts that have an electronic lock, has a Microban® antimicrobial surface coating.

## COLOR OPTIONS

Infinitely adjustable and customizable to meet the specifications of any healthcare facility, our MayaCart drawer trays and dividers are made of heavy-gauge material to provide quality and durability.

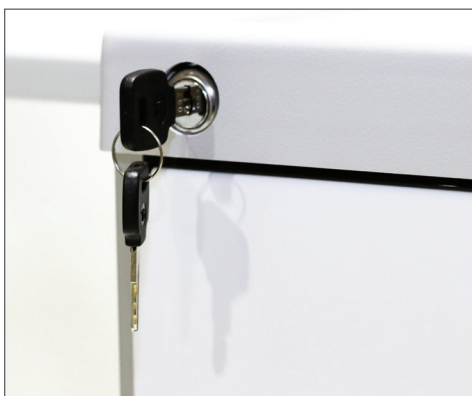

## TRAYS & DIVIDERS

Our MayaCart trays and dividers are the perfect storage solution for your MayaCart drawers. An option for each drawer size provides your clinicians and facility the flexibility to compactly organize all your medical supplies. The durable material adds extra stability when taking the trays in and out of the drawers.

- Optimizes the available storage space in each drawer
- High-impact, seamless polymer construction helps contain spills and improve infection control
- Bright white material allows you to easily identify build-up of debris
- Large radius corners allow for easy cleaning
- Trays are divisible into 1" increments using our short and long dividers to best optimize the space

## LOCKING OPTIONS

Standard key lock on all models. Optional push button electronic lock. Microban® antimicrobial surface coating is included on all electronic lock keypads. Optional breakaway lock bar is also available.

# CHECKLIST

## CONFIGURING THE MAYACART

MayaCarts are designed to organize critical supplies, specialized instruments, and medications for easy accessibility so time is not wasted looking for items required for patient care.

Understanding where, when, how, and by whom medical carts will be used is key to configuring a MayaCart for optimal efficiency and versatility.

Here's a checklist of things to consider:

- |  |  |
|--|--|
| <input checked="" type="checkbox"/> Cart Height              | <input checked="" type="checkbox"/> Mounted Suction Shelf      |
| <input checked="" type="checkbox"/> Number of Drawers        | <input checked="" type="checkbox"/> Power Strip and Cord Wrap  |
| <input checked="" type="checkbox"/> Drawer Size              | <input checked="" type="checkbox"/> Cardiac Board              |
| <input checked="" type="checkbox"/> Type of Drawer Tray      | <input checked="" type="checkbox"/> Catheter Holder            |
| <input checked="" type="checkbox"/> Type of lock             | <input checked="" type="checkbox"/> Overhead Shelf             |
| <input checked="" type="checkbox"/> Side Mount Rails         | <input checked="" type="checkbox"/> Rear Accessory Board       |
| <input checked="" type="checkbox"/> Sharps Container         | <input checked="" type="checkbox"/> Defibrillator Shelf        |
| <input checked="" type="checkbox"/> Chart Holder             | <input checked="" type="checkbox"/> O <sup>2</sup> Tank Holder |
| <input checked="" type="checkbox"/> Glove Box Holder         | <input checked="" type="checkbox"/> IV Pole                    |
| <input checked="" type="checkbox"/> Mounted Waste Bin        | <input checked="" type="checkbox"/> Push Handle                |
| <input checked="" type="checkbox"/> Mounted Side Storage Bin | <input checked="" type="checkbox"/> 3 Side Guard Rail          |
