

AGP96RF

56.63" x 21.5" x 21.75" (H x W x D)

General purpose refrigerator-freezer with digital refrigerator control, internal fan, and alarm/thermometer

Highlights:

Combination refrigerator-freezer for general purpose storage in facilities

Digital controls allow you easily manage the refrigerator temperature between 2 and 8°C

Alarm/thermometer included to help monitor the interior temperature

Product Features:

Refrigerator-freezer combination	2 to 8°C refrigerator section for basic storage applications, with an upper freezer compartment ideal for ice packs
Digital thermostat (refrigerator)	Easy operation with a factory-installed digital thermostat that allows you to manage the refrigerator temperature between 2 and 8°F (NOTE: the freezer temperature will self-adjust based on the refrigerator setting)
Alarm/thermometer included	Temperature monitoring device (TMD) displays the current and min/max temperature of the refrigerator interior, with an audible alarm to alert if the unit goes out of range
Buffered temperature probe	Thermometer probe is encased in a glycol-filled bottle to better simulate the temperature of stored contents instead of refrigerator air temperature
External temperature readout	Thermometer is designed to be placed on the door, allowing you to view the interior temperature without opening the door and exposing stored contents to warmer air
Fan-forced cooling	Refrigerator section includes a factory-installed fan to help ensure a more evenly cooled interior
Automatic defrost refrigerator	Lower refrigerated section does not require manual defrosting
Manual defrost freezer	Static cooling system in the upper freezer compartment
