

Vehicle Extractor

Vehicle transfers are virtually effortless for caregivers with the Vehicle Extraction Lift.

Lifting a patient from a vehicle is one of the riskiest patient transfers there is. Tollos' Vehicle Extraction Lift is specifically designed to make patient transfers to and from a vehicle as simple and as safe as possible. The Vehicle Extractor's sleek low-profile posture allows for quick and easy transfers in and out of all types of vehicles.

Rated at 600 lbs weight capacity, Tollos' Vehicle Extraction Lift is sure to handle your safe lifting needs. Designed with a small footprint and slim 2-point spreader bar, the Vehicle Extraction Lift provides maximum maneuverability when working in tight and narrow vehicle openings.

Features

- Power base widening
- Up to 600 lbs capacity
- Slim 2-point spreader bar for narrow access
- Optional on-board or removable batteries
- 4-function hand controller
- Lifetime frame warranty

Tollos' Vehicle Extraction Lift is specifically designed to make patient transfers to and from a vehicle as simple and as safe as possible.

An ergonomic control panel with a dual battery warning system, and dual controls, means the Vehicle Extraction Lift is always charged and ready to use.

Designed with a small footprint and slim 2-point spreader bar, the Vehicle Extraction Lift provides maximum maneuverability when working in tight and narrow vehicle openings.

The Vehicle Extractor's sleek low-profile posture allows for quick and easy transfers in and out of all types of vehicles.

Vehicle Extractor
