

OLYMPIC WARM-LAMPS™

*Two warming lamp options
provide safe, gentle
warmth for babies*

**Gentle Warmth for Changing,
Bathing, Feeding, Weighing,
Examinations, & Procedures**

Adapts to Many Uses

With its adjustable height & light hood, the Olympic Warm-Lamp is easy to set at the correct distance and angle for use during bathing, feeding, weighing & examinations. The control panel is set at just the right height for use with an Olympic Smart Scale, or an examination table.

Radiant Heat & Light

Uses a special single bulb that furnishes both radiant heat & clear white light

Infrared Heat

Radiates invisible infrared heat, creating a wide zone of comfortable warmth – available with or without fully adjustable exam light

OLYMPIC WARM-LAMPS™

Adjustable Light Hoods:
Light hoods on all Warm-Lamps swivel and tilt and hold their position, providing complete control over direction of warmth.

Distance Measurer:
All Warm-Lamps have a retractable measurer on the side of the Light Hood to ensure warmth is the optimal distance from the baby.

Adjustable Height:
All models have adjustable height – from 58 to 74 in. (147.3 to 187.9 cm) – so the lamp can be placed at just the right distance from the baby.

Fully Maneuverable:
Warm-Lamps have a roll-around base with five swivelling casters for ease of movement, and are counter-balanced for stability & safety.

Easy-to-use Controls:
A 15 minute on/off safety timer and an adjustable intensity control are standard features on Olympic Warm-Lamp models.

Ordering Information
